also given

below the

displayed

number

whether he

may go to

play or not

with

reference to

the count of

people in live

occupancy.

Exit

option available

from the

current

tab to

screen on right top of it. for

confirmati

on of exit?

After

clicking on

exit button

it will ask

whether

you are

sure about

it or not

ideas and

suggestion

for

fratures.

Different tabs

available on

the front of the

screen

On left top

menu bar

is also

their.

Type the

first two

letters it

Will

autofill

the

sports

name.

occupancy of the typed sport - i.e.

tells number of

people currently

in the court.

Gives the live

He plays as much as he can to relax himself

borrowed

equipment

recorded or not?

ID of the specific

equipment he

borrowed must

be filled in the

next screen in ID

filling option .

Will QR code

scanning ask for

permission to

the camera?

He now goes to return the equipment and leave the court.

At last he click on Neutral He clicks on button and Return Button exits the app He finally He again need to scan the OR needs to scan the QR code code of sports pasted outside room and need the court to to return that make his borrowed occupancy equipment. neutral. With this he Clicking gets redirected once on to the current 1) Return tab in the home screen status screen borrowed button or equipment only twice on option the rear 2) Neutral button performs yourself button this in live occupancy operation.
